

Environmental Policy

Digi Glass Limited are committed to ensure that its business activities are conducted with minimum impact on the environment.

In order to aspire to this objective the business is implementing an environmental management system which complies with ISO 14001:2004 ensuring that all of our products, processes and activities are independently continually assessed and improved.

We are committed to a continual improvement program and the prevention of pollution ensuring we comply with all legal requirements as well as other requirements, which will help us achieve the high standards we set.

We are setting environment objectives and targets focused on our key impacts which form an essential part of our continual improvement program.

We will actively encourage all of our suppliers and customers to make a positive contribution to our environmental objectives.

Our Environmental Management System will be implemented through controlled documentation and maintained using internal and external audit systems.

This policy is communicated to all staff members and other interested parties through notice boards, training plans, and our website which can be made available to the general public on request.

A handwritten signature in blue ink, appearing to read "D Macdonald", is written over a faint, light-colored rectangular background.
